

DM de physique : Comment tracer toutes les forces qui s'appliquent sur un objet, sans en oublier aucune ?

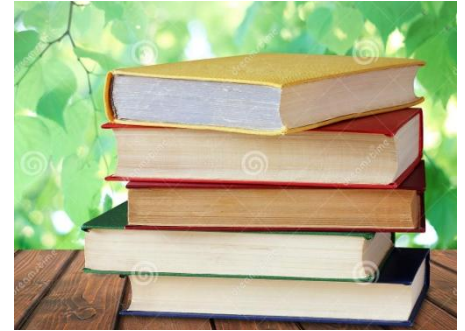

Pour chaque situation, dessine un schéma de la situation et, en t'aidant du diagramme objet-interactions, trace toutes les forces qui s'appliquent sur l'objet étudié.

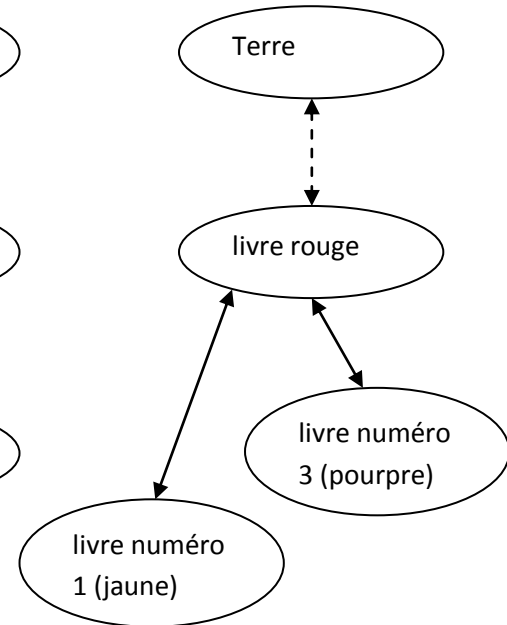

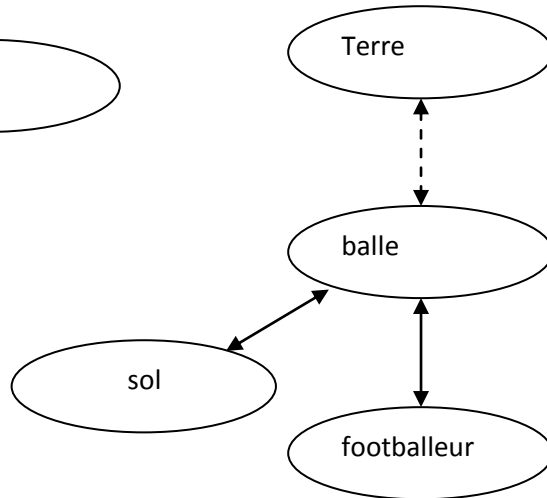

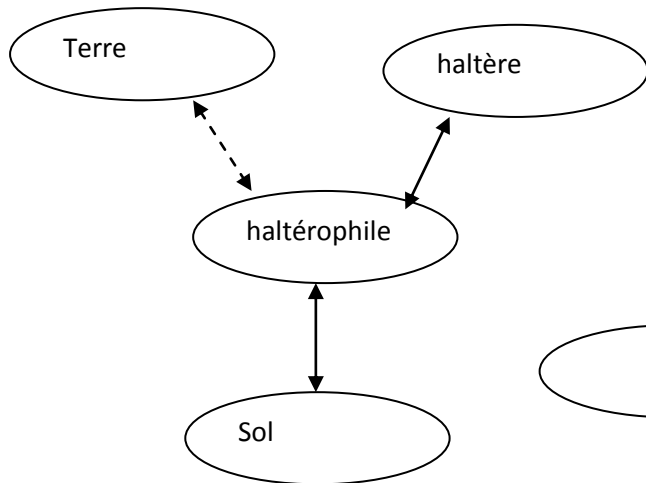

1) On étudie l'**haltérophile**

2) On étudie **la balle** (au moment où le footballeur tape dedans) .

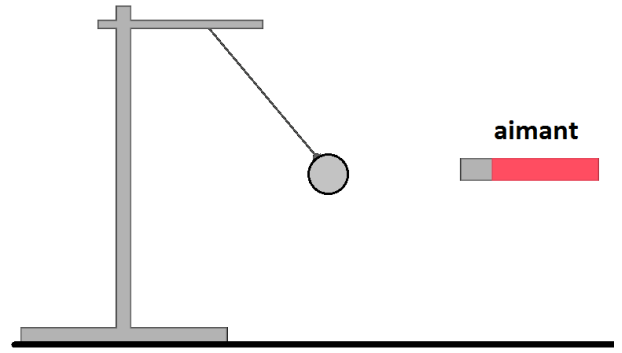

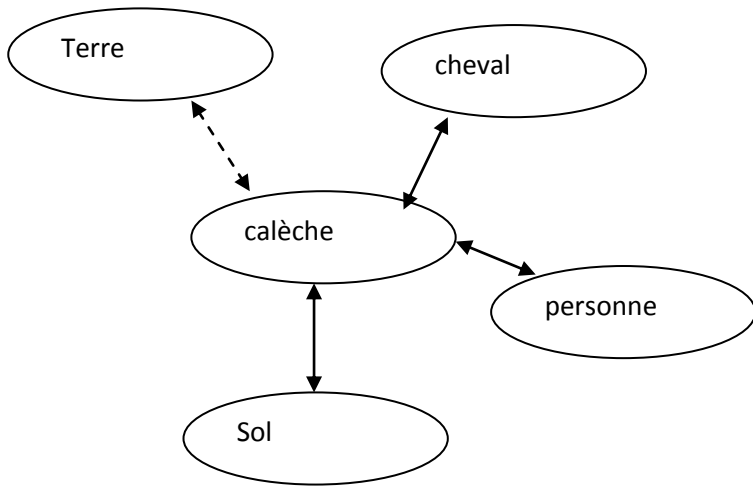

3) On étudie **le livre rouge** (l'avant dernier)

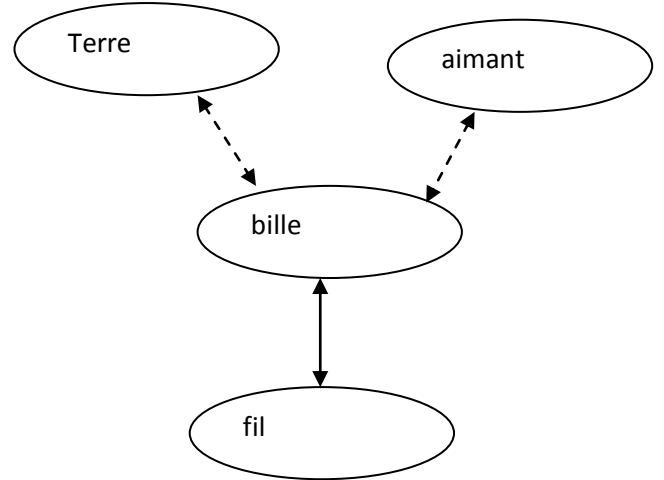

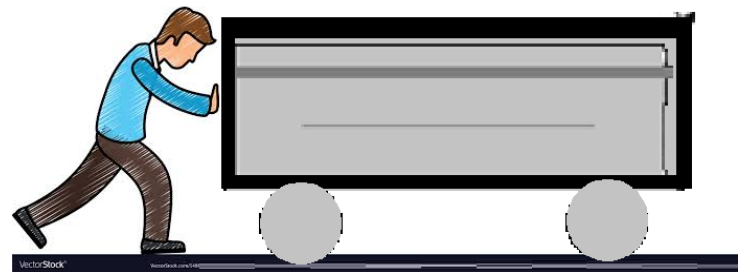

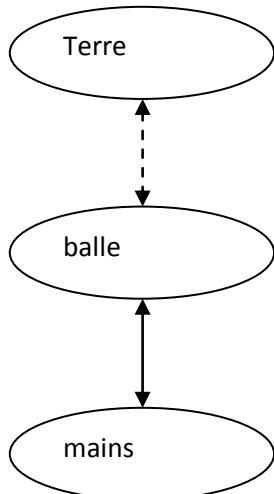

4) On étudie la calèche

5) On étudie la bille suspendue

6) On étudie le ballon de basket

7) On étudie le chariot
